

Your ideal platform for language teaching and learning.

DLL is a language learning software that provides all the features required by teachers for language learning such as pronunciation practice, video presentation, audio broadcasting, quiz and exercise.

The content for DLL is highly flexible. Teaching materials can be tailor-made for students with the aid of content builder. Alternatively, teachers can use any other resources that exist in the market. With our DLL, language learning becomes easier, more flexible and more interactive.

Applications:

Interactive language learning

Pronunciation practice

Listening practice

Oral quiz and examination

Presentation skill training

Functions and benefits

Master Resources

Pin and discover standards-aligned teaching materials: With familiar pinning tools, finding lesson materials that have been aligned to both state and Common Core standards can never be easier. Teachers can now upload lesson contents to lesson maps and share pins in student playlists.

- Playlists for students
 - Create playlists for students with ease
- Connect resources to lesson maps
 - Grab an audio or video from any website, upload to selected local server and share with your students

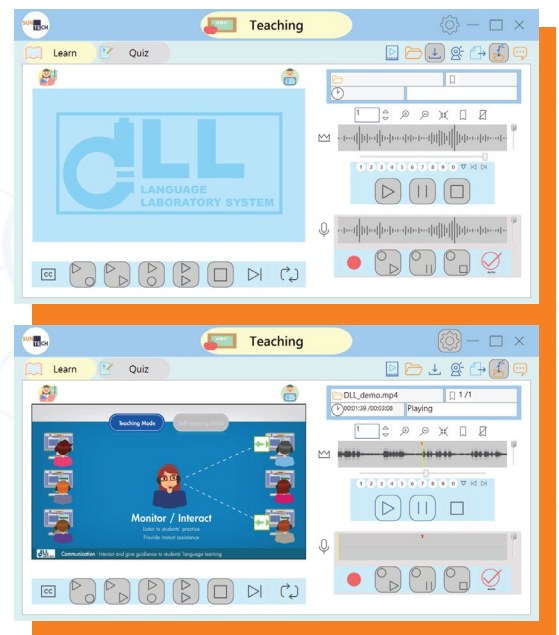

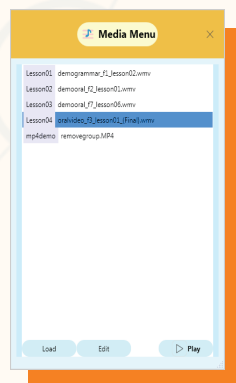

Master Planning

- Create, manage and track tasks for a more cohesive learning experience
- Create study schedules and control students' learning progress
- Establish an effective study routine by scheduling events on your schedule

Facilitate Communications in Classroom

Intercom through Microphone

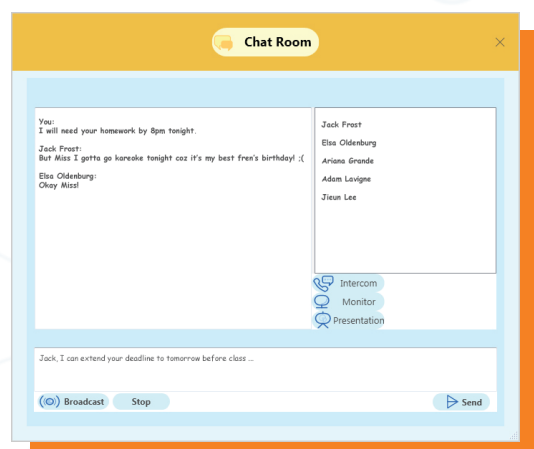

- Allows teacher to give instructions or advices to individual student or broadcast to all instantly
- Teacher can monitor students' learning progress by listening to each of their pronunciations
- Students can give presentations to the whole class
- Text discussion is available in chat room

Prepare Teaching Materials with Ease

Courseware Building

- Customize your own course materials
 - Zoom able visual waveform
 - Bookmark management
 - Caption/ subtitle creation for learning aids
 - Play media at any point bookmarked
- Feel free to adopt movie clips, TV programs, AV signal, Webcam source or any other multimedia files as your teaching aids
- All-in-One Assignment: easy to integrate multimedia content, exercises, subtitles and book marks in the same project file for content management

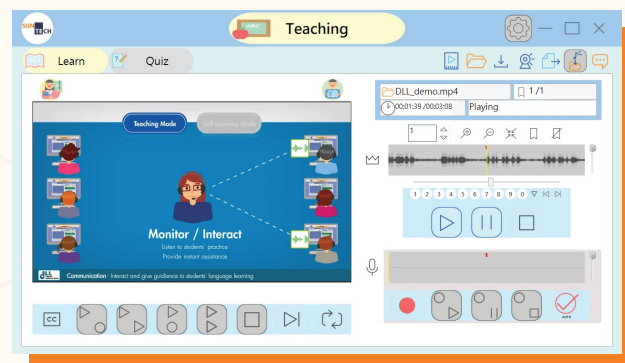

Revolutionized Interface of Learning Mode to Improve User Experience

Interactive Language Practice

- Listen to the master track and record your own oral assignment
- Compare pronunciation between master track and student track
- Set up bookmarks to create index for teaching material
- Advanced manual features allow students to record audio tracks flexibly
- Students can practice a certain sound segment repeatedly
- Retrieve students' recordings automatically for further assessment

Lessons Run Smoothly

Real-time Teaching

- Real-time record, video and voice broadcasting in class
- Synchronized voice, video and text between teacher and students

Teaching Materials

- Lessons can be delivered with prepared or pre-recorded coursework
- Compatible with most popular audio and video file formats, including:

Audio: MP3, WMA, WAV, etc.

Video: AVI, MPG, MP4, WMV, VOB, MPEG, DAT, etc.

Speed Control

- With playback speed control

Specially Designed Quiz Module for Language Learning

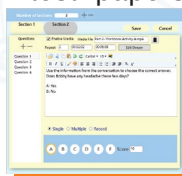

Quiz Editor

- 3 question types available:
 - a) Voice Recording
 - b) Single Selection
 - c) Multiple Selection
- Place multimedia content with ease (including image, audio and video)
- The teacher can create any number of test papers or choose the paper from the library

Quiz Management

- Simultaneous quiz process monitoring
- Collect quiz files automatically or manually

Auto Marking & Reporting

- Instant quiz result: auto marking & manual marking
- Detailed graphical quiz report can be exported in various formats (Including Word, Excel, PDF, CSV, etc)

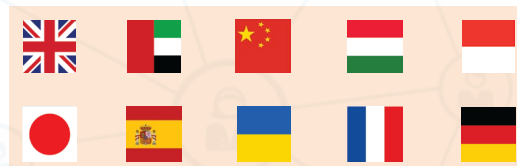

Practice without Limitation

Self- Learning Mode

- Students can continue to practice after class
- Recordings can be saved in WAV and MP3 formats

Other Features

- Home version is available for students' use at home without teacher's guidance
- Multi-language support - up to 12 languages.

English/ Arabic/ Chinese/ Hungarian/ Indonesian/ Japanese/ Spanish/ Ukrainian/ French/ German
Remark: More languages can be designed and developed if requested

- File transfer: Transfer or collect files from student PCs
- File sending and receiving notification is included

Evaluating students' progress in language learning has never been easier!

System Requirement

Operating System	Microsoft Windows 7 or above
Computer Configuration	CPU: 1.5GHz Dual core processor or higher Memory: 1 GB RAM or higher Storage: 1.5GB of available space Screen Resolution: 1024 x 768 or higher Others: Sound Card
Software Requirements	Microsoft Direct X 9.0c or above Windows Media Player 10.0 or above Net Framework 4.0
Network Requirements	LAN: Ethernet 100Mbps or higher Switch: 100 Mbps or higher Others: All PCs have to be in the same subnet
