The Best Partner for Enhancing Speech Intelligibility

Multimedia Headset

Professional Multimedia Headset ST-202 and ST-203 provide all the performance and features you would expect from a quality headset for classroom usage.

With the simple plug-and-play USB connection and noise-reducing microphone, you could experience true-to-life calls almost instantaneously.

Besides, with its soft leatherette padded circumaural headphones, it allows you to listen to teachers and to perform group discussion in comfort. In addition, the padding on the headband ensures that it always fits the contours of your head.
