

With our successive development, Sun-Tech is glad to announce that we have enhanced our XCLASS with several advanced features including Remote Deployment, Widescreen Support, DVD Broadcasting, Multicast and Multi-language Platform. We believe these functions can let teacher enjoy a more efficient and diversified teaching environment, it makes learning become more interactive and with lots of fun!

### ***Educational Event***

Besides product development, Sun-Tech always supports educational events with our innovative technology products. This can probably arouse student interest in learning as well as develop their potential.

In March 2009, our XPRESS had been utilized by Hong Kong Science Museum to hold the Hong Kong Secondary School Science Quiz Competition 2009. On that day, there were hundreds of secondary students participating in it. With the fast summarization and clear reporting of our XPRESS, the competition proceeded smoothly and efficaciously. At the end, we were also pleased to receive many positive feedback from the secondary schools, museum and university representatives.

With these valuable responses, we will keep improving our XPRESS with more interactive and user-friendly features, so as to match up with different demands and the fast-changing trend.

### ***Promotional Scheme in Asian Countries***

Sun-Tech not only supports the local market, but also carries out assistive campaigns in some developing countries.

In order to let more teachers and students enjoy the convenience of teaching and learning with technological solutions, Sun-Tech has joined hand with our distributors to hold some campaigns for schools. To start with, we have donated a set of software-based language laboratory to a school and provided free training. This can let them know more about ICT in education and also experience the functionalities and advantages.

Finally, we would like to thank for all your continuous support. Hope that you could get valuable information about our current development and future prospect through this newsletter.

If you have any inquiry about our products, please feel free to contact our Sales Team at [sales@suntechgroup.com](mailto:sales@suntechgroup.com) for further information and product demonstration.
