

Happy New Year 2014! We are grateful to usher in the brand new year with spirit and happiness. Although the world economy has been facing many difficulties in the past few years, 2013 was indeed a fruitful year for Sun-Tech. As the Chinese proverb goes, *"in the middle of difficulty lies opportunity"*, we are confident to overcome this tough period and will continue our motto of developing the best ICT solutions to suit our customers' needs.

XCLASS Supports Android Tablets Now

As encouraged by our great success of winning various projects with our tablet version on the Windows 8 platform and the insight of seeing the growing trend of Android platform in the mobile market, we are excited to announce that we have made a bold step of our further expansion of our XCLASS Classroom Management Software into the mobile solution platform – Android tablet – with our latest XCLASS EVO Tablet version. Please contact us to receive a free trial and experience our Classroom Management Software on your Android tablets.

Sun-Tech Expansion into Advertising Industry

We are glad to have established a new sister company – Sun-Tech Media Limited – which is devoted to provide professional services for advertising and media production in Hong Kong. We have high confidence in expanding into this sector to broaden our range of business and have successfully cooperated with a large chain of credit service company and convenience store to promote one of our advertisement services through a deposit machine 24/7. Sun-Tech will continue to strive to create sustainable business opportunities in various sectors and to play a part in improving social welfare with social responsibility.

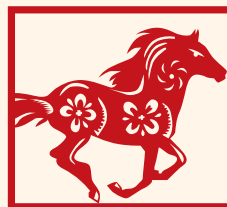

Come & Join Us at BETT 2014

Sun-Tech is going to participate in BETT – one of the world's largest educational technology event – which will be held during 22nd - 25th Jan 2014, at ExCeL London (the exhibition and international convention centre). It is definitely a wonderful opportunity for all the visitors around the world to easily meet potential business partners and know the latest development and trend in the ICT market, especially to understand more about Sun-Tech's latest product development and business movement. So, please do not hesitate! Come and join us to get the first-"touch" experience as well as first-hand information of our latest inventions. We truly hope to see you at our booth F333.

INDO COMTECH

Jakarta Exhibition

Apart from BETT, it is worth mentioning that we had successfully supported our Indonesian partner in one of the biggest exhibitions for computer and I.T. industry in Indonesia – IndoComtech Exhibition in Oct 2013. This event presented wide range of products from IT-related industry under one roof at the Jakarta Convention Centre and we are proud that we joined our partner to present our solutions at the show.

Year of the Horse

In Chinese Zodiac, 2014 is the Year of the Horse. The start of the Chinese New Year falls on Friday, 31st Jan 2014. In our traditions, horse represents adaptability, loyalty, courage, ambition, intelligence, and strength. And we would like to take this opportunity to express our gratitude for your support over the past year. We hope to receive your continued support this year.
